SKU: N/A | **Categories:** [Cold Rolled Sheet Steel Coils](#), [Steel Coils](#) | **Tags:** [Cold Rolled Steel](#), [Cold Rolled Steel Coils](#), [Steel](#), [Steel Products](#)

PRODUCT DESCRIPTION

In addition to coils, Con-Tech can supply cold roll material in cut to length sheets, strip and in first operation blanks. Con-Tech also **exports cold rolled steel products** to several countries, including Costa Rica, Mexico, Guatemala, Canada and Ecuador, among others. Con-Tech **cold rolled sheet steel** is made by the cold rolling process, performed below the metal's softening temperature, whereby previously hot rolled and pickled metal is passed through cold rolls.
