### PRODUCT DESCRIPTION

The **FreezePro™55-Gallon Drum Insulation Lid FPDL24** is designed for use with the **FreezePro™Drum Insulation Jackets FPD7834** and **FPD7834-HE-C-01** and the **Ranco ETC Single State Temperature Control-NEMA Type 4X**. The **FreezePro™55-Gallon Insulation Lid FPDL24** must be purchased separately.

**FreezePro®Frost Protection Systems** are designed to meet the most rigorous storage and temperature requirements of most industrial fluids or substances. They offer an all-in-one energy efficient system that increases revenues and improves operational efficiencies. All **are** removable, reusable and weather resistant. They are long lasting, durable, UV stable and 100% asbestos free.

Unlike most removable insulation systems, **FreezePro Frost Protection Systems** come in standard, universal sizes that are available for off-the-shelf delivery. **FreezePro Frost Protection Systems** are designed to fit an array of sizes and can be used on almost any application that requires freeze or frost protection; temperature or chemical stability; and stress-free bonding or flexible encapsulation.

When used as a preventive maintenance product, **FreezePro Frost Protection Systems** pay for themselves immediately upon the first freeze of winter. Few prevention type products will pay for themselves as quickly and with as little upfront effort, as **FreezePro®**.

And there is no equipment downtime when installing **FreezePro products**. They are simple and quick to install without tools!
