PRODUCT DESCRIPTION

The **FreezePro™Non-Heated Tote Tank Insulation Jacket FPT19254-NH** provides temperature stability for temperature-sensitive products during the transport, handling and storage of chemicals, fluids and bulk materials in tote tanks. The **FreezePro™Non-Heated Tote FPT19254-NH Insulation Jacket** is designed for use with **FreezePro™Tote Tank Insulation Lids**, which must be purchased separately.

FreezePro™Frost Protection Systems are designed to meet the most rigorous storage and temperature requirements of most industrial fluids or substances. They offer an all-in-one energy efficient system that increases revenues and improves operational efficiencies. All **are** removable, reusable and weather resistant. They are long lasting, durable, UV stable and 100% asbestos free.

Unlike most removable insulation systems, **FreezePro™Frost Protection Systems** come in standard, universal sizes that are available for off-the-shelf delivery. **FreezePro™Frost**

International resources for your world

Protection Systems are designed to fit an array of sizes and can be used on almost any application that requires freeze or frost protection; temperature or chemical stability; and stress-free bonding or flexible encapsulation.

When used as a preventive maintenance product, **FreezePro Frost Protection Systems** pay for themselves immediately upon the first freeze of winter. Few prevention type products will pay for themselves as quickly and with as little upfront effort, as **FreezePro®**.

And there is no equipment downtime when installing **FreezePro products**. They are simple and quick to install without tools!
