PRODUCT DESCRIPTION

The FreezePro'Non-Heated Tote Tank Insulation Jacket FPT19260-NH provides temperature stability for temperature-sensitive products during the transport, handling and storage of chemicals, fluids and bulk materials in tote tanks. The FreezePro[™]Non-Heated IBC Jacket FreezePro[™]Tote Tank Insulation Lids FPT19260-NH is designed for use with , which must be purchased separately from the FreezePro™on-Heated IBC Jacket FreezePro@rost Protection Systems are designed to meet the most rigorous storage and temperature requirements of most industrial fluids or substances. They offer an all-in-one energy efficient system that increases revenues and improves operational efficiencies. All are removable, reusable and weather resistant. They are long lasting, durable, UV stable and 100% asbestos free. Unlike most removable insulation systems, FreezePro@rost Protection Systems come in

standard, universal sizes that are available for off-the-shelf delivery

. FreezePro@rost

are designed to fit an array of sizes and can be used on almost any application that requires freeze or frost protection; temperature or chemical stability;

and stress-free bonding or flexible encapsulation.

FreezePro@rost Protection Systems When used as a preventive maintenance product, pay for

themselves immediately upon the first freeze of winter. Few prevention type products will pay for themselves as quickly and with as little upfront effort, as

FreezePro®.

And there is no equipment downtime when installing FreezePro@roducts. They are simple

and quick to install without tools!

PRICE: \$1895.00
