

International resources for the drum world

Con-Tech...International Resources for Your World

Looking to edge out your competition? For over thirty years our customers have done just this by taking advantage of our access to domestic and offshore manufacturing that provides high quality results at a low cost.

Whether we provide steel, or container components or access custom manufacturers for you, Con-Tech brings all of the benefits of our suppliers with no worries for you.

With Con-Tech at your side, you get a world of products brought to you with the service and reliability of a trusted American supplier.

What makes Con-Tech International different from other suppliers is our attention and knowlwdge of YOUR world. We have six specialized teams that understand your market and its unique needs: Con-Tech Steel, Con-Tech IBC components, Con-Tech Drum Accessories, Con-Tech Marine, Con-Tech Custom and Con-Tech Plastic Packaging.

Welcome to the world of global possibilities available for your world.

Components and Accessories for the world of drums and pails.

Con-Tech Drum Accessories brings a full range of stainless, carbon steel and plastic components to container manufacturers in North and South America. Our ISO Manufacturing partner in India, Technocraft Industries India Limited, makes these products for our domestic customers. Our other closure suppliers are also ISO-Certified. To meet your needs, we stock the following products for immediate shipment.

Tite-Seal™ Drum Closures

Con-Tech is the exclusive supplier of Tite-Seal Drum Closures, known the world over for high quality design and manufactured excellence. Tite-Seal Octagon Flanges and Tite-Seal Round Plugs meet all U.S. D.O.T. and U.N. standards and are completely interchangeable with other closures. We carry zinc plated and lined closures. In addition, we have Buna, EPDM or Poly-irradiated gaskets you can choose from.

Tite Seal Leak Lock Plug — specially made for use with reconditioned drums, solves alignment problems with a patented two-piece closure system.

Weldable, machined metal closures are also available for use with stainless steel drums housing high-end food, fragrances and specialty chemical products.

Manual and pneumatic cap seal crimping tool for fast, secure installation.

Tite-Seal Nylon Plugs

Nylon plugs are highly recommended for use on steel drums containing flammable or combustible materials. Con-Tech's nylon plugs are all FM-Approved to ensure pressure is released in a fire situation.

Tite-Seal Cap Seals

Con-Tech's Tite-Seal Cap Seals, available in tin-plated steel and polyethylene, crimp or snap over drum plugs and flanges to provide maximum protection against tampering, contamination and spills. Custom printing adds brand impact.

Tite-Seal Can Seals

Can seals are tamper evident plastic closures designed for 5 gallon metal and plastic pails. With a large 63 mm opening, product can be filled fast. The built in pull up pouring spout makes dispensing easy and efficient. Anti Glug Can seals are also available for a more uniform pour. Can seals can be decorated with customer's logo.

Ring Components

Choose from a wide variety of zinc electro-plated carbon steel bolts and nuts produced to ANSI standards by Con-Tech's manufacturing partners. Lever latch handles and lugs in different sizes and designs are available. For more detailed specifications, visit our web site at www.con-techinternational.com.
